Tip of the Week

By Jeff Miller

The average adult requires 48oz of water per day. As we dive deeper into the summer months, the humidity is ramping up. Please make sure you are staying hydrated out there on the course. Remember, hydration starts the night before!

July 13th : The FSGA will be hosting a 1 day amateur event on the Piper Course. Member tee times will begin at 1:45pm.

Swing Thought of the Week

By Mike McClellan

Love the beach? The secret to bunker play is to hit 1" behind the ball and have the sand leave the bunker. Sand no leavey the bunker, ball no leavey the bunker.

New Merchandise

By AJ Gorey

Come by the golf shop and check out our new groovy golf bags from Bag Boy! They are on display in the center of the golf shop.

Employee of the Week

By Jeff Miller

Thank you to Gary Colangelo for his efforts this week as residents provided great feedback regarding his high level of service and enthusiasm on the Guest Services Team. If you see him around on the facility this week, congratulate him and thank him for being an integral part of the LWN Golf Staff.

Ball Machine Users

With the summer storms about to get into full swing, please be sure that ball machine users cover the machine after EVERY use. Make sure the balls are pushed into the retrieval gutter and the machine has time to pick them up before turning the machine off. It is a very expensive piece of equipment and we hope all users look after it so members can continue to use it. Please be respectful to the rest of the community.

Heat & Hydration

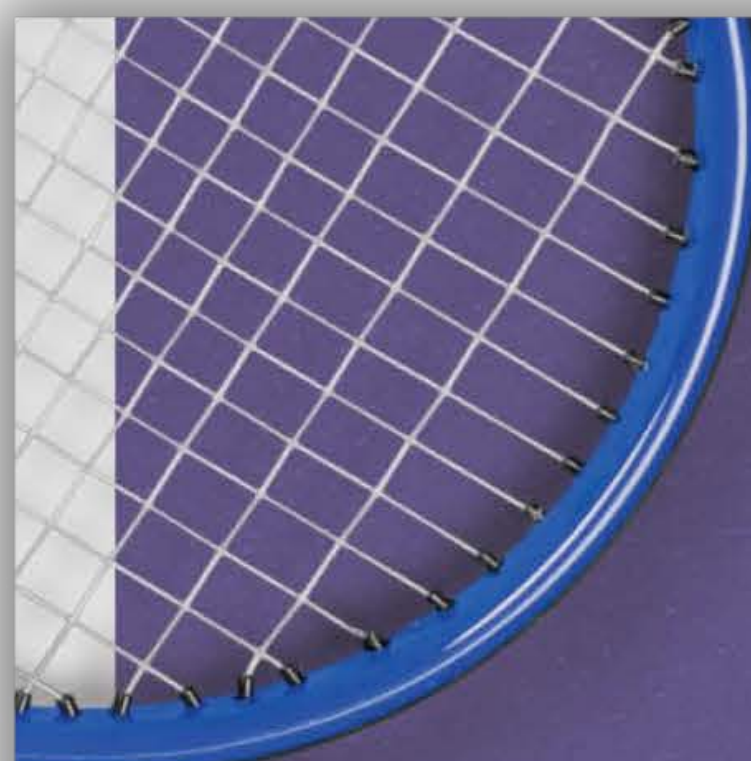

It's still hot, so please stay hydrated when you come to play tennis, pickleball, or bocce

Storms

Please be advised that with the increasing number of storms popping up in the area that you are playing "AT YOUR OWN RISK". We are creating the safest environment possible for everyone to have fun and enjoy the sports that you love, but please make smart choices with the weather. WET courts should NEVER be played on. Lightning is a real possibility in Florida and storms move quickly. We recommend not playing if lightning is in the area. Please use the Salix Reservations Wall for information during pro shop hours. Outside of pro shop hours the wall will not be updated.

FITNESS

CLASS DESCRIPTIONS

Most classes are approx. 50-60 minutes of active time.

AQUA FUN & SPLASH: Take the plunge for a fun filled shallow water class with lively music to keep you moving! Enjoy all the benefits of water exercise to stay fit with low impact moves that are easy on the joints. Just the resistance of the water helps improve cardio fitness, gain endurance, flexibility, and strength! *With inclement weather, water aerobics will be cancelled & instructor may offer indoor class. Bring change of clothes/shoes.

BARRE: Barre is a rigorous hybrid workout incorporating elements of ballet, yoga and Pilates! The low impact exercises focus on high repetitions, small range and isometric movements - expect to feel the burn and shake a little (or a LOT!) Barre is also ideal for flexibility, overall balance and coordination.

CHAIR YOGA: Bend, stretch and rejuvenate your body from the comfort of a chair. Enjoy traditional yoga poses and breathe without coming down to the mat! A gentle yoga well suited for those with limitations.

DANCE FUSION (NEW): This fun class focuses on easy-to-follow dance moves and light body weight training, all while listening to energetic pop and international music. Feel the music and reshape your body and mind in this exciting dance atmosphere!

PILATES (MAT): In this mat Pilates class, primary focus is placed on postural and core muscles that provide support to the spine. Regular Pilates exercise strengthens the deep torso muscles and brings breath awareness and spinal alignment. If you want to increase flexibility, core strength and develop or maintain a balanced, well-postured body, then this class is key.

PILATES PLUS (NEW): Welcome to Pilates Plus! No Pilates experience necessary! You will be guided through pilates-style moves to increase balance, build a strong core, tone your entire lower body including glutes, inner & outer thighs, PLUS use light weights to tone and strengthen your entire upper body. We'll be targeting the back, biceps, triceps, and shoulders so you can feel confident all summer long!

PIYO (NEW): Combine the health benefits of Pilates and Yoga all in one fitness class! This functional training workout is designed to strengthen your entire body in a controlled manner to improve mobility and flexibility.

SPIN: All levels! Hop on a bike and enjoy the RIDE. Achieve fast results (with consistency) and be challenged with a combination of HIIT (high intensity interval training) and endurance training. Enjoy the music and the challenge!

STRENGTH AND SERENITY YOGA: A hybrid yoga class. This blended style combines both traditional flows and poses with deep breathing techniques and static stretches to bring both strength and serenity to the body and mind.

STRETCH & SCULPT: This low intensity class will start off with stretching, balance work and mobility work (such as foam rolling) in order to alleviate tightness, target pressure points to help lengthen muscles, increase range of motion, and reduce stiffness. The remainder of the class will transition into light "sculpting" of different body parts each week. Focus of sculpting may change from week to week, going from lower body priority (glutes and thighs) one week, and focusing on upper body (back and arms) another week.

TIGHT-N-TONE (TNT): A simple to follow workout featuring a low weight, high repetition format to help build a lean, sculpted body! Improve your muscle strength, endurance, posture and balance as you pump those muscles to fun and familiar tunes. Resistance bands and tubes may be utilized as well to gain maximum training results. Finish with a core workout as well as a refreshing, lengthening stretch. Great for most fitness levels.

TOTAL BODY CIRCUIT (45 MINUTES): Full body toning with a blend of cardio and strength that keeps you burning calories at a higher rate. Consists of a consecutive series of varying exercises performed one after the other with short amounts of rest between each.

TROUBLE ZONE TONE: A total body strength and toning workout designed to target those notorious trouble zones with upper- and lower- body sculpting exercises to help torch fat faster and tighten your problem areas. So come on in to lift your seat, tone your thighs, sculpt those abs, and say goodbye to those muffin tops and wobbly arms! Dumbbells and some accessories may be used. Low impact and appropriate for most fitness levels.

YIN YOGA: Focuses on the internal, passive, cooling and downward aspects of Yoga. Poses/stretchers are held 3-5 minutes to allow work on the deep, dense connective tissues and joints in the body. A slower, more relaxing style of Yoga.
